

## The protection you need, when it matters most.

Monitoring transforms your security setup from reactive to proactive. Our in-house Alarm Receiving Centre (ARC), Marlowe Connect, operates 24/7, 365 days a year to protect your business, valued employees and assets.

### NSI Gold Standard

We are audited and certified to the highest standards, including Category II NSI ARC GOLD.

### A Decade of Excellence

Our expert team is equipped with the knowledge and skills to protect your people and property.

### Rapid Response

A rapid response to any alarm or breach and appropriate, pre-agreed, action taken.

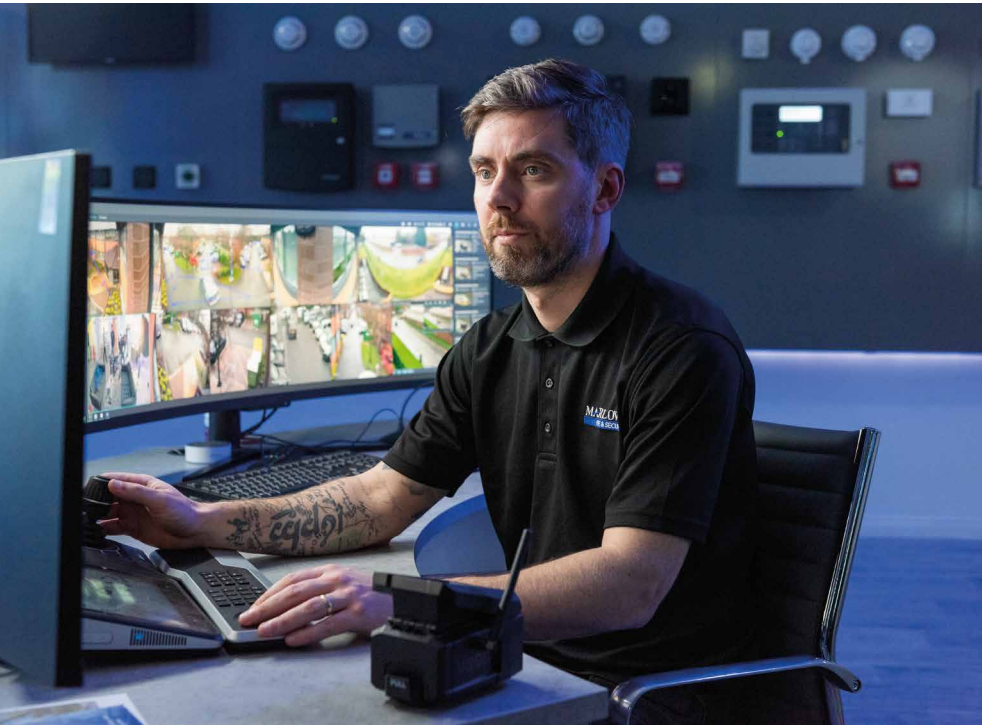

### Flexible

We are flexible and adaptable, ensuring that our services align with your unique requirements.

## Could this be the missing link in your alarm protection?

True security means having vigilant eyes on your premises around the clock, ready to respond at the first sign of a breach or emergency. Monitoring transforms your security setup from reactive to proactive, providing the protection you need when it matters most.

So, if monitoring is the missing link in your alarm monitoring, it's time to contact us for a friendly consultation.
